SUMMARY

Computer Science student specializing in machine learning and data analysis, with hands-on experience in Python workflows using Pandas, NumPy, and scikit-learn for data preprocessing, exploratory analysis, and predictive modeling. Skilled in SQL and data visualization libraries, with a solid grasp of ML algorithms and evaluation metrics. Eager to apply and expand these skills in an AI internship building models and supporting data-driven solutions.

EXPERIENCE

*IEEE Computational Intelligence Society (CIS) Student Branch, AITR, **Chair***

Jan 2024 - Dec 2025

Spearheaded 10+ workshops & hackathons, leading a 5–8 member team and boosting participation by 35%+
Organized 8+ industry sessions, engaging 500+ students and strengthening industry exposure
Optimized operational workflows, accelerating event execution speed by ~25% and minimizing delays
Improved cross-device compatibility, reducing UI issues by ~40% through responsive design practices.

*Tech-o-Tsav 2.0, **Web Developer***

Jul 2025 - Sep 2025

Launched a responsive event platform serving 3000+ users, ensuring seamless access and navigation
Enhanced cross-device performance, cutting UI issues by ~40% through responsive design optimization
Architected 3+ core modules (registration, scheduling, sponsors), handling 1000+ user interactions.
